THE 12TH PLANET, by Zecharia Sitchin, in paperback. This is Mr. Sitchin's first book of *The Earth Chronicles*, which is based upon his years of study of Sumerian texts which reveal the coming to Earth over 450,000 years ago of an advanced culture from a planet in our solar system yet to be discovered by today's astronomers.

THE STAIRWAY TO HEAVEN, by Zecharia Sitchin, in paperback. This is the second book of *The Earth Chronicles*, which includes some fascinating accounts of the visits of extraterrestrials to Earth. The chapters on the pyramids of Egypt and the terrace of Baalbeck are of particular interest to students of the ancient astronaut theory.

THE WARS OF GODS AND MEN, by Zecharia Sitchin, in paperback. This is Book III of the author's series *The Earth Chronicles*. The series brings the story down to 2024 BC when the extraterrestrials destroyed mankind on Earth in a nuclear holocaust.

THE LOST REALMS, by Zecharia Sitchin, in paperback. This is Book IV of the author's series *The Earth Chronicles*. In this work the author advances the theory that the Annunaki, who came to Earth some 450,000 years ago from the planet Nibiru (Marduk), are responsible for the great civilizations of the Aztecs, the Mayas and the Incas.

GENESIS REVISITED, by Zecharia Sitchin, in paperback. In this companion volume to *The Earth Chronicles*, the author reexamines the teachings of the ancients in light of mankind's latest scientific discoveries and uncovers facts that challenge long-held, conventional beliefs about our planet and our species.

WHEN TIME BEGAN, by Zecharia Sitchin, in paperback. This is Book V of the author's series, *The Earth Chronicles*. This 1993 publication offers "startling documented proof of the extraterrestrial gods who changed the course of human development" on Earth.

YUCATAN BEFORE AND AFTER THE CONQUEST, by Diego de Landa, in oversized paperback. De Landa's book gives us a full account of Maya customs, daily activities, history, ceremonial festivals, and the many social and communal functions in which their life was expressed.

THE 6,000 YEAR-OLD SPACE SUIT, by Vaughn M. Greene, in oversized paperback. The author analyzes the incredible 6,000 year-old Dogu statues found in Japan and shows over 30 points of similarity between the statue and modern Apollo spacesuits.

THE GREAT PYRAMID SPEAKS TO YOU, by Joseph B. Gill, in hardcover. In this study in "mathematical archaeology," the author shows through analysis, computations and diagrams how the proportions of the Great Pyramid in Egypt conform to theoretical formulas which point to a profound understanding by the ancient Egyptians of mathematical, physical and astronomical principles.

CHARIOTS OF THE GODS? by ERICH VON DANIKEN, new reprint, in paperback

OUR COSMIC ANCESTORS, by Maurice Chatelain, in oversized paperback. Originally released under the title, Our Ancestors Came From Outer Space, this is one of the best books in the Ancient Astronaut field, with dynamic evidence to show that a highly advanced civilization had existed on Earth over 65,000 years ago, which received its technology from extraterrestrial visitors. Proving with mathematics and other sciences that such well known works as the Egyptian Pyramids, Stonehenge, the Mayan Calendars, the Maltese cross, the Sumerian tablets and many other enigmas around the world were deliberately designed to leave a message for future generations.

GOLD-COLORED PLASTIC REPLICA of 1,000 year-old Colombian artifact, 2 1/2 inches long and 2 inches wide, affixed with pin to be worn as a brooch. May also be worn on a chain as a pendant (chain not included).
